

Welcome back! We hope you have had a lovely Christmas break with lots of fun, and are as excited as we are to start a new term.

In the spring term our topic is 'Caring for Our World'. The children in Class 2 will find out about the world in which we live and how we can help to make it a better place for now and future generations.

We will be looking at energy including electricity and renewable sources.

The local council will be visiting to teach the children about how and what to recycle at home and school and why this is important. They will find out about what happens to the items after we put them in our wheelie bins.

The children will use research skills to find out about animals and their habitats. They will explore the different ways in which animals are adapted to survive life at extreme temperatures.

After half-term we will be learning about dinosaurs and fossils (need we say more!?) and we are currently arranging a class trip to enhance the topic.

We are all looking forward to showing off our hard work when we perform the musical 'Eddie and the Penguins Save the World'. More details about dates and times will be in the school newsletter in due course. Please help your child to practise their lines. It will be particularly useful for the narrators to become very familiar with the script.

Information - Please make sure we have your latest emergency contact information including phone numbers, especially if you have moved house or changed jobs etc. We have an information board outside Class 2 where you will find any letters and notices. We also have a weekly diary sheet where parents can write 'home time' arrangements.

Thank you for your continuing support,

Mrs Eland and Mrs York
