

Monday 20th November 2023

Dear Mrs Welch,

We are excited to extend an invitation for up to 12 of your Year 5 students to attend our after-school Science Enrichment Club. Our club is designed to provide students with an enjoyable and interactive learning experience that encourages curiosity and exploration in science.

The Science Enrichment Club will be led by myself and another member of our department and will run for five weeks on Tuesdays, starting on January 9th and ending on February 6th. The club will run from 3:40 pm to 4:30 pm in our Science department at Langley Senior School. We will arrange for your students to be collected at the end of their school day from your school by one of Langley's minibuses and brought directly to our Science department.

During the club, students will have the opportunity to engage in hands-on activities and experiments that will help them develop a deeper understanding of science concepts. Our activities are designed to be both educational and enjoyable, and we believe that students will have a great time while learning about the world around them.

We kindly request that parents/guardians pick up their child from our school promptly at 4:30 pm when the Science Enrichment Club ends (please see next page for maps). We also require parents/guardians to complete an online consent form, which can be found at the following link <https://forms.office.com/e/Dk2P7yrfm9>

Participation in the Science Enrichment Club is free of charge, and all materials and equipment will be provided.

Thank you for considering this invitation, and we look forward to hearing from you soon.

Yours sincerely,

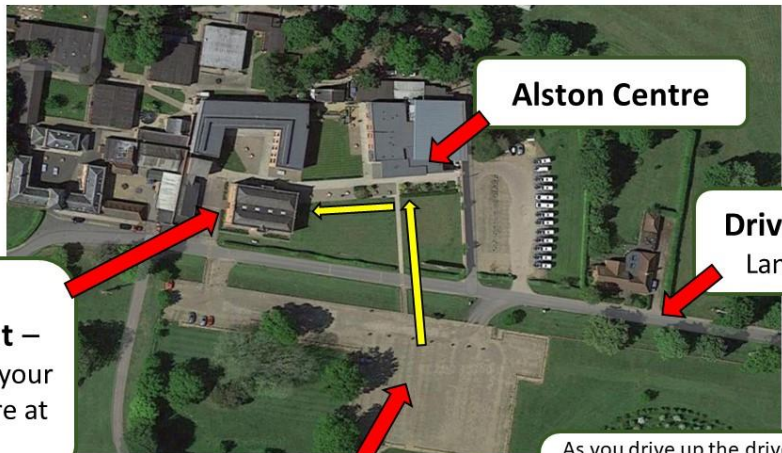

Mrs Kerry Goodhew
