22 October 2025

Dear Parents/Carers

Science Lecture 2025

I am delighted to be able to invite you to an evening of entertainment at Hobart and hope that you will join us for this exciting and interesting lecture 'Now we must redefine man' on **Thursday 4 December 2025.**

We are very lucky to have Ben Garrod joining us. He says that it is quite difficult to pin down exactly what it is that makes humans unique. After living and working with gorillas, chimps, sharks and even polar bears for many years, Ben reveals in this lighthearted, scientific talk there's actually very little that separates you from the rest of nature.

We are able to offer this lecture **free** of charge in the evening, all you need to do is complete the attached reply slip and return it to the school reception, call or email office@hobart.org.uk, indicating how many seats you would like. I anticipate that we will have a full audience for the evening presentation so to avoid disappointment please reply as quickly as possible. You must have booked seats to gain entry to the show, which runs from 7.00pm to 8.00pm.

There will be refreshments from 6.30pm on the evening.

I look forward to seeing you at the evening presentation.

Yours faithfully

J de Best
